Objective

Self-motivated, highly passionate and hardworking fresher looking for an opportunity to work in a challenging organisation where my skills and knowledge can be enhanced to their maximum potential to contribute overall success and growth of organisation .

Education

B.E(IT)	- Anuradha Engineering College,SGBAU	-	8.90 CGPA	- 02/05/2023
HSC	- DBD College,SGBAU	-	78.92%	- 02/06/2019
SSC	- Adarsh Vidhyalay,SGBAU	-	88.62%	- 02/03/2017

Technical Skills

- Programming Languages   -   C, C++, Core Java.
- Backend technologies   -   JDBC, JSP, Servlet.
- Frontend Technologies & Libraries -   HTML, CSS, Bootstrap ,JavaScript ,React(Basic).
- Framework   -   Spring(Core, JDBC, MVC),Spring Boot, Hibernate.
- Database Languages   -   SQL
- Tools   -   MySQL, GitHub, Eclipse, VS Code.

Soft Skills

- Life-long Learner
- Leadership

Projects

Project-Name:-Restaurant Billing Web (Live Project)

Role:-Worked on middleware and backend core logics, create database.

Link:- https://nexusnests.in/
It is a web application which is developed by using JSP, Servlet, JS, HTML, CSS, Bootstrap, JDBC to connect database. It is useful to maintain all the collection, to take orders, to do bills, to show tables availability and each data we can download in excel format. Use graphical representation to show collections which is easy to understand. We use session to secured it.

Project-Name:-Hospital Management System

Role:- Worked on core logics and database.

Hospital management system is used to register and maintain the details of patients and facilities available. Hospital Management System is a website that is designed to handle all the activities of clinic workflow like medical, financial, legal, administrative, healthcare performance It developed in java using JDBC and use MySQL as a database.

Project-Name:-Data Leakage Detection System

Role:- Worked on UI and SDLC.

Data Leakage Detection System is used to detect the data leakage. The system is a website that is designed to help organization, where admin and user are two modules . Where admin is able to handle all the registration and allow users to login and share files, also if any file get leaked admin will be able to see that username and can blocked them. It is developed by using Php , HTML,CSS,JS .We used VS Code and XAMPP tools.

Extra-Curricular Activity :

- JAVA FULL STACK Developer certified by Giri's Tech Hub.
- Used Hacker Rank for practicing programming 1st rank holder in SQL and JAVA
   Link-https://www.hackerrank.com/profile/purvapatil332
- Participated in Vedic Math competition and achieved 95% in all levels.

Area-of-Interest :   Reading Books, Warli painting, Mandala Art.

Declaration   : I hereby declare that the details furnished above are true and correct .
